CRRA Members Weekly Update

Asst. General Manager Community Letter

Happy Friday CRR!

We hope everyone had a good week and is getting into the fall spirit. Looks like we have a decent cold snap lined up for tomorrow to really bring those temps down, so it's probably time to dig out the sweaters and hoodies from last year.

To continue to keep everyone updated on the bathhouse door project, at this point we have the new PIN pad locks installed at all locations except North Park which should be done soon. While the installation progresses, the already installed locks at each location have been intentionally left open. Once the final North Park installation is complete, we'll conduct thorough testing to ensure that the system is working 100% as intended. At the same time we'll be conducting training with the staff who need to know how to operate the system. Once all of that is complete we'll be ready to go live and will share a final update with the date to expect the new system to be activated.

On another note, the Gilmer County Health Department will be on site here in the Fireplace Room this coming Wednesday the 20th from 8:00am-9:45am providing flu shots. Most insurance is accepted, and they will have both under and over 65 versions of the shot available. If you'd like to stop by, there are no appointment times needed, but please email Kathy Greene at kathygreene@mycrra.com and share your name and phone number so they have some idea of the number of people to

expect.

Lastly, Ellington gate inside lane has re-opened. We keep more than a few spare parts on hand to prevent downtime when something fails, but we went through both of the two spare gate operators just before Ellington had an issue so we actually had to wait on parts.

That's it for now, have a great weekend everyone!

Best Regards,

Racey Cave
Asst. General Manager

Trunk Or Treat

A Message From Your Environmental Conservation Committee

In order to protect and nurture our wildlife, we must protect and nurture the environment where wildlife find food and shelter. Failure to recognize the intricate relationship between the two may result in the demise of both. Protecting both is important to current and future generations for food, clothing, medicines, beverages and spices. Source: acerecology.co.uk
