Asst. General Manager Community Letter

Happy Friday CRR!

We hope everyone had a restful, relaxing, safe, and healthy holiday season. We're focused on getting off to a strong start for 2022 and are excited to be doing so under the leadership of our new General Manager, Josh Laskowski.

We're already very busy gearing up for more than a few projects slated to be tackled this year, such as:

- Remediation of the Nexus Rd. failure
- Remediation of the Newport Dr. failure
- Repair of the roof at the POA offices
- Repair of the roof at the Rec Center
- Reconstruction of the Eagle Mtn. gate and gatehouse
- Repair and beautification of Legion and Ellington gatehouses

As always, we'll be sure to keep everyone updated as to progress on each of these and many other projects we'll be working on throughout the year.

On another note, a couple months ago I had a resident recently ask me for some basic facts about the community such as, "How many miles of roads do we have?" I've seen a wide range of (usually pretty "out there") numbers given in response to these sort of questions, so I went on a mission to run down several statistics and come up with numbers that are as accurate as it's

possible to be without having the staff spend real time and money providing exact figures, so I thought I'd share. Feel free to reference these numbers whenever you see or hear people asking some of these FAQs:

Coosawattee River Resort is home to more than 3,200 full time residents and spans more than 5,500 acres split up into nearly 8,000 individual lots. A home of some type has been constructed on about 4,500 of those lots, or about 55%, while the other 3,500 are unimproved. There are approx. 140 miles total made up of 380 individual named roads with 33 of those miles being paved, a tad under 25%, and 107 remaining gravel. At an average of about 85,000 a month, residents and guests of all types combined generate more than 1 million gate entries and exits every year.

At least a few of those numbers were probably new to most of you, but they all add up to the community being a very, very busy place.

Lastly for this week, keep an eye out for a personal letter of introduction from our new GM that will be coming out in the next few weeks.

Until next week,

Racey Cave
Asst. General Manager

A Message From Your Environmental Conservation Committee

Mark your calendar for this year's Great Backyard Bird Count!

Just spending 10 minutes one of these days "counts" for your part as a citizen scientist assisting the cause of identifying the health of our bird populations. Get out your bird books and brush up on your ability to identify the usual suspects in your backyard or favorite outdoor space, and then be up for identifying those special appearances that usually result from that extra bit of time to pay attention to who's flitting about.

EMC Water Base Rate Increase

Every year the Eagle Mountain Campground base water rate is reviewed to make sure that it covers the cost to maintain the water system. Legally we are required by the USDA loan that was

used to get the new water system to bill residents the amount needed to cover the cost of that loan and operating expenses. After reviewing the current amount being billed compared to the operational expense and repayment of the loan, there is a deficit of approximately \$8. The new rate will be effective on the 01/15/2022 billing cycle. The increase only effects the base rate. Rates for usage are unchanged.
